California Strategic Growth Council
Community Resilience Centers Program

RE: Letter of Support – Community Resilience Centers Round 2 Implementation Grant

Dear Community Resilience Centers Grant Review Committee:

Castroville Community Services District (CCSD) is especially supportive of the proposed project focus on on community engagement that provides culturally and linguistically responsive emergency preparedness and services. This project truly builds upon existing community strengths and partnerships and creates an opportunity to better coordinate resources for residents who may experience disproportionate impacts during emergencies.

As a community partner, CCSD anticipates supporting this effort through the many formal and informal mutual aid agreements that are already in place locally and statewide. We look forward to continued collaboration with North Monterey County Unified School District and other community partners to help ensure the Community Resilience Center is responsive to local needs and remains a trusted and accessible resource.

We strongly support the North Monterey County Unified School District application and respectfully encourage the California Strategic Growth Council to fund this important investment in the resilience, safety, health, and well-being for the community of North Monterey County Unified School District..

Sincerely,

James Derbin
General Manager

ATTN: Sanitary Sewer Collection Systems

PREPARATION FOR ANTICIPATED 2026-2027 EL NIÑO RAINY SEASON

The State Water Resources Control Board and Regional Water Quality Control Boards (collectively, Water Boards) are notifying you to prepare your sanitary sewer system for the 2026-2027 rainy season.

On September 21, 2026, Governor Gavin Newsom issued a [proclamation of a state of emergency](#) in preparation for potential severe weather and flooding associated with the predicted El Niño event. El Niño is a natural climate pattern that occurs when a band of warm water develops in the Pacific Ocean which causes higher than average rainfall throughout the state.

To minimize sanitary sewer system spills due to severe storms, Sanitary Sewer Systems General Order enrollees must have an up-to-date emergency response plan and complete preventative maintenance: reduce inflow and infiltration, fix structural vulnerabilities, ensure adequate system capacity.

The Water Boards will evaluate rain-related spills to determine if the enrollee took appropriate preventative maintenance and preparation measures for the rainy season. Failure to demonstrate adequate preventative measures may result in an enforcement action.

If you have questions, please contact sanitarysewer@waterboards.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Crader".

Division of Water Quality

DISTRICT 2

On August 13, Monterey County faced one of its most significant decisions in years. The Salinas Valley Basin Groundwater Sustainability Agency (SVBGSA) weighed three water infrastructure options with implications lasting 40 years or longer.

The decision wasn't locally driven — it stemmed from the state's 2014 Sustainable Groundwater Management Act, which required SVBGSA to submit a plan addressing seawater intrusion in the Salinas Valley Basin. Failure to act, or an inadequate plan, risked a state takeover: a likely 35% across-the-board water use cut with decision-making shifted to Sacramento. That cut would have hit agriculture, businesses, residents, and recreational users alike, with economic damage compared to the Great Depression.

The 11-member SVBGSA Board considered three costly options:

- Portfolio 1 (\$1.3 billion): The most expensive, building a full Brackish Groundwater Restoration Project (BGRP) plus river recharge, Castroville project upgrades, and a 10% agricultural demand cut. Annual costs, including debt, were estimated at \$150–200 million. It was projected to meet the state's 2040 deadline.
- Portfolio 3A (\$1 billion): A reduced BGRP with similar components, plus water delivery to Salinas, Marina, and Castroville for resale. Annual costs likely exceeded \$100 million, but it might not meet the 2040 timeline.
- Portfolio 3 (\$600 million): The cheapest option, relying on river recharge, recycled water, limited injection, and a 20% demand cut. Annual operating costs were just \$8 million, but it appeared unable to meet state seawater intrusion requirements.

DISTRICT 2

All options required fallowing farmland, with ripple effects far beyond agriculture — food processing, trucking, suppliers, and general consumer spending across the Salinas Valley and Monterey Peninsula. A 10% demand cut was projected to cost \$1.35 billion annually in direct and indirect impacts; a 20% cut, \$1.9 billion. Fallowed land was also expected to draw housing development, accelerating further water demand and reshaping the region.

In the end, the SVBGSA Board voted 9-2 to move forward with the Brackish Groundwater Restoration Project (BGRP), with a potential budget of \$1 billion. The approval was conditional, as other projects remained under consideration.

The Board of Supervisors adopted an ordinance to amend Monterey County Code Chapter 15.06 to authorize and regulate point-of-use (POU) and point-of-entry (POE) water treatment for new construction on either a vacant existing lot of record or an accessory dwelling unit (ADU) that would be served by either a domestic water system or a private well that would otherwise not meet primary drinking water standards. This is in response to a referral I put forward seeking to have more affordable water treatment options for people whose water systems are impacted by contamination. This would allow people to build affordable housing instead of having to pay for a much more expensive centralized treatment system.

FOR IMMEDIATE RELEASE

UPDATE #38

OVERNIGHT AND DAYTIME WORK CONTINUES ON STATE ROUTE 183/MERRITT STREET IN CASTROVILLE

MONTEREY COUNTY – Construction continues, and is working towards completion, on a major rehabilitation of State Route 183 (Merritt Street) in Castroville to enhance multimodal travel. This phase of work will result in constructing new retaining walls, sidewalks, curb and gutters, driveways, ADA curb ramps and roadway work.

Travelers are encouraged to follow directions provided by construction and traffic signs within and around the construction areas and to be alert for highway workers and equipment in this work zone.

Reminder: Drivers must abide by speed limit laws everywhere.

One lane of traffic in each direction will remain open for travelers on SR 183. Installing underground irrigation and utility boxes along the southbound lane and across SR 183 at different locations will continue next week. The placement of concrete for new sidewalks, bulb outs, curb and gutters, and ADA ramps will continue.

Daytime construction activities next week will take place between 7 am to 4 pm from **Oak Street to Walsh Street** to construct sidewalks, curb and gutter, ADA ramps, and driveways adjacent to recently constructed retaining walls.

Overnight road work with alternating lane closures may also occur from **Del Monte Avenue to State Route 1** from 8 pm to 5 am. This work consists of utility relocation to allow for upcoming work. (**Note:** this work is not Caltrans project work. It is permit work related to the Caltrans project.)

Overnight work will also take between 8 pm to 5 am with Granite potholing to verify the location of existing transverse underground facilities from the **intersection of Highways 183/156 to Haro Street** and the **Blackie Road/ Highway 183 intersection**. Striping between Blackie Road and Walsh Street will be restored to its original configuration by the end of the week.

All businesses remain open and Caltrans appreciates the patience of the business community and the people of Castroville.

A zone for construction workers and two-way traffic will be maintained with minor delays and will include heavy equipment. During some stages of construction, there will be a temporary removal of parking, sidewalk and driveway access. Pedestrian access to local businesses and residences will be provided and maintained by the Contractor. Bicyclists and motorists are encouraged to share the road on SR 183. Travelers can expect delays of up to 15 minutes during peak periods. Plan your travel accordingly.

Message and directional signs will direct travelers in advance of the project area.

About the Project

Through the town of Castroville on Merritt Street, the project will rehabilitate the pavement, address essential bridge maintenance needs, and improve multimodal features, including transit stops, sidewalks, driveways, and ADA compliant curb ramps. The project will also install new Intelligent Transportation System features and improve aesthetics, bicycle network continuity, and pedestrian safety.

Updates for the SR183/Merritt Street Castroville Improvement Project can be found at: [State Route 183 Castroville Improvement Project | Caltrans](#)

The contractor for this \$38 million project is Granite Construction, Inc. out of Watsonville, CA. The construction stage of this project is expected to be complete by end of 2026.

For traffic updates on other state highways in Monterey County, travelers may contact Caltrans District 5 Public Affairs at 805-549-3318 or can visit the District 5 website at: <https://dot.ca.gov/caltrans-near-me/district-5>

CASTROVILLE COMMUNITY
SERVICES DISTRICT

To: Castroville Community Services District Board of Directors

From: James Derbin, General Manager

Agenda: October 20, 2026

Date: October 14, 2026

Agenda Title: Adopt Resolution No. 2026-06, Approving Water and Sewer Utility Rate and Fee Adjustments and Directing the Required Approval Process

Recommendation/Motion:

Staff recommends that the Board of Directors:

- 1) Receive the presentation on the 2026 Water & Sewer Rate & Fee Study (RDN, September 25, 2026);
- 2) Approve the proposed Water and Sewer Capacity charges
- 3) Direct staff to initiate Proposition 218 notification and public hearing process required for adoption of new water and sewer rates

Background:

In 2026, the District retained Robert D. Niehaus, Inc. (RDN) to prepare a comprehensive Water and Sewer Rate and Fee Study. The final report, dated September 25, 2026, presents a five-year financial plan, cost-of-service analysis, rate design, and proposed capacity charges to support the District's increasing operating costs and capital improvement plan (CIP).

Staff recommends that the Board authorize the findings of the rate study and move forward with the Proposition 218 Process and the mailing of Notices (See Attachment A and B for copies of the 218 Notices) to all customers of record. Additionally, staff recommends that the Board schedule an adoption hearing for the proposed capacity charges for the next Board of Directors Meeting. Resolution No. 2026-06 is attached.

RESOLUTION NO. 2026-06

**A RESOLUTION OF THE BOARD OF DIRECTORS OF THE CASTROVILLE
COMMUNITY SERVICES DISTRICT APPROVING WATER AND SEWER UTILITY
RATE AND FEE ADJUSTMENTS AND DIRECTING THE REQUIRED PUBLIC

CASTROVILLE COMMUNITY SERVICES DISTRICT

NOTICE OF PUBLIC HEARING ON PROPOSED WATER RATES

Proposition 218 Notice

PUBLIC HEARING

Tuesday, December 15, 2026 at 4:30 PM

District Board Room • 11499 Geil Street • Castroville, CA 95012

Why You Are Receiving This Notice

The Castroville Community Services District (District) is proposing adjustments to its water rates. The proposed rates are based on the District's 2026 Water and Sewer Rate and Fee Study and are designed to recover the cost of providing water service, fund ongoing operations and maintenance, support for necessary capital improvements and system resilience, maintain appropriate reserves, and equitably allocate costs among customers based on cost of service.

If adopted after the public hearing, the first proposed rates would take effect February 1, 2027, followed by scheduled adjustments on July 1, 2027, July 1, 2028, July 1, 2029, and July 1, 2030. The Board may adopt rates at or below the amounts shown in this notice, subject to Proposition 218 requirements.

Proposed Water Rates

MONTHLY FIXED CHARGE: A monthly fixed charge is proposed for all customers by meter size based on the relative cost to provide service to each meter. To develop fixed charges, customer service costs are applied equally to each customer because these costs do not increase based on meter size, and other fixed costs are applied based on the meter equivalency of the potential flow in gallons per minute. This changes the current fixed charge policy which includes a fixed monthly charge based on the meter equivalency which is paid by all customers and a monthly flat rate which is only paid by residential customers with more than one unit.

VARIABLE CHARGES: Variable rates were designed by taking all costs not recovered by the fixed charge and dividing those costs by the projected water use. The current and proposed rates are shown in the table below.

Monthly Fixed Rate - Base Service

How Your Water Bill Is Calculated

A customer's water bill consists of the applicable monthly fixed charge plus a variable charge based on metered water use. The variable rate is charged for each cubic foot (7.48 gallons) of water used. Actual bill impacts will vary by meter size and water consumption.

Public Hearing and Written Protests

The Board of Directors will hold a public hearing on the proposed water rates on **December 15, 2026 at 4:30 PM in the District Board Room, 11499 Geil Street, Castroville, CA 95012**. At the hearing, the Board will receive public comment and consider all timely written protests. Oral comments are welcome but do not count as formal Proposition 218 protests unless accompanied by a valid written protest.

To be counted, a written protest should:

- Clearly state that you protest or oppose the proposed water rates;
- Identify the affected property by service address, assessor's parcel number (APN), or customer account number;
- Include the printed name and signature of the property owner or customer of record submitting the protest; and
- Be received by the District before the close of the public hearing on December 15, 2026.

MAIL WRITTEN PROTESTS TO
Castroville Community Services District
P.O. Box 1065
Castroville, CA 95012

Written protests may be submitted at any time before the close of the public hearing. Mailed protests must be received by the District before the close of the hearing; a postmark alone does not establish timely receipt. Written protests may also be delivered to the District office at 11499 Geil Street, Castroville, CA 95012, or submitted at the public hearing before it closes.

Only one written protest per affected parcel will be counted in determining whether a majority protest exists. If valid written protests are submitted for a majority of the affected parcels, the District may not impose the proposed rate increases. Pursuant to Government Code Section 53759, a judicial action to challenge any new, increased, or extended fee or charge must be brought within 120 days of the final approval of the fee or charge.

Additional Information

The proposed rates were developed through the District's 2026 Water and Sewer Rate and Fee Study using customer usage and billing data, operating and management records, capital plans, reserve policies, and cost-of-service principles. A copy of the rate study and related public meeting materials is available on the District's website at CastrovilleCSD.org. Questions may be directed to the District at (831) 633-2560.

CASTROVILLE COMMUNITY SERVICES DISTRICT

AVISO DE AUDIENCIA PÚBLICA SOBRE LOS CAMBIOS PROPUESTOS A LAS TARIFAS DE AGUA

Aviso sobre la Proposición 218

AVISO DE AUDENCIA PÚBLICA

Martes, 15 de Diciembre, 2026 a las 4:30 PM

District Board Room • 11499 Geil Street • Castroville, CA 95012

Motivo de Esta Notificación

El Distrito de Servicios Comunitarios de Castroville (el Distrito) propone ajustes en sus tarifas de agua. Las tarifas propuestas se basan en el Estudio de Tarifas y Cuotas de Agua y Alcantarillado del 2026 del Distrito y están diseñadas para recuperar el costo de prestación del servicio de agua, financiar las operaciones y el mantenimiento continuos, respaldar las mejoras de capital necesarias y la resiliencia del sistema, mantener reservas adecuadas y distribuir los costos de manera equitativa entre los clientes según el costo del servicio.

Si se aprueban tras la audiencia pública, las primeras tarifas propuestas entrarían en vigor el 1 de Febrero de 2027, seguidas de ajustes programados para el 1 de Julio de 2027, 1 de Julio de 2028, 1 de Julio de 2029 y 1 de Julio de 2030. La Junta Directiva puede aprobar tarifas iguales o inferiores a los importes indicados en esta notificación, sujeto a los requisitos de la Proposición 218.

Tarifas Propuestas de Agua

CARGO FIJO MENSUAL: Se propone un cargo fijo mensual para todos los clientes, determinado según el tamaño del medidor y basado en el costo relativo de prestar el servicio a cada uno. Para establecer estos cargos fijos, los costos de atención al cliente se aplican por igual a todos los usuarios, ya que no varían en función del tamaño del medidor; por otro lado, los demás costos fijos se asignan según la equivalencia del medidor respecto al caudal potencial en galones por minuto. Esta propuesta modifica la norma actual de cargos fijos, la cual contempla un cargo mensual fijo basado en la equivalencia del medidor —pagado por todos los clientes— y una tarifa fija mensual que pagan únicamente los clientes residenciales con más de una unidad.

CARGOS VARIABLES: Las tarifas variables se diseñaron tomando todos los costos no cubiertos por el cargo fijo y dividiéndolos entre el consumo de agua proyectado. Las tarifas actuales y propuestas se presentan en la siguiente tabla.

Tarifa Fija Mensual - Servicio Base

Tarifa Variable de Agua - Consumo General (por pie cúbico)

Tamaño del Medidor	Actual	Feb. 1, 2027	Jul. 1, 2027	Jul. 1, 2028	Jul. 1, 2029	Jul. 1, 2030
Consumo General	\$0.0218	\$0.025	\$0.027	\$0.029	\$0.031	\$0.033

Cómo se Calcula su Factura de Agua

La factura de agua del cliente consta del cargo fijo mensual aplicable más un cargo variable basado en el consumo de agua medido. La tarifa variable se aplica por cada pie cúbico (7.48 galones) de agua consumida. El impacto real en la factura variará según el tamaño del medidor y el consumo de agua.

Audiencia Pública y Objeciones por Escrito

La Junta Directiva tendrá una audiencia pública sobre los cambios a las tarifas de agua el **15 de Diciembre de 2026 a las 4:30 p.m. en la Sala de Juntas del Distrito, ubicada en 11499 Geil Street, Castroville, CA 95012**. Durante la audiencia, la Junta recibirá comentarios del público y tomará en cuenta todas las objeciones presentadas por escrito dentro del plazo establecido. Se aceptan comentarios verbales, pero estos no se consideran objeciones formales bajo la Proposición 218 a menos que vayan acompañados de una objeción válida por escrito.

Para ser tomada en cuenta, una protesta por escrito debe de:

- Declarar claramente que protesta o se opone a las tarifas propuestas de agua;
- Identificar la propiedad afectada mediante la dirección del servicio, el número de parcela del tasador (APN) o el número de cuenta del cliente;
- Incluir el nombre impreso y la firma del propietario de la propiedad o del cliente registrado que presenta la reclamación; y
- Debe de ser recibida por el Distrito *antes* del cierre de la audiencia pública el 15 de Diciembre del 2026.

ENVÍE SUS PROTESTAS POR CORREO A:

Castroville Community Services District

P.O. Box 1065

Castroville, CA 95012

Las objeciones por escrito pueden presentarse en cualquier momento antes de que concluya la audiencia pública. Las objeciones enviadas por correo deben ser recibidas por el Distrito *antes* del cierre de la audiencia; el matasellos por sí solo no acredita la recepción oportuna. Las objeciones por escrito también pueden entregarse en la oficina del Distrito, ubicada en 11499 Geil Street, Castroville, CA 95012, o presentarse durante la audiencia pública antes de que esta termine.

Solo se contabilizará una protesta por escrito por cada parcela afectada para determinar si existe una protesta mayoritaria. Si se presentan protestas válidas por escrito correspondientes a la mayoría de las parcelas afectadas, el Distrito no podrá aplicar los aumentos de tarifa propuestos. De conformidad con la Sección 53759 del Código de Gobierno, cualquier acción judicial para impugnar una tarifa o cargo nuevo, aumentado o prorrogado deberá iniciarse dentro de los 120 días siguientes a la aprobación definitiva de dicha tarifa o cargo.

Información Adicional

Las tarifas propuestas se elaboraron como parte del Estudio de Tarifas y Cuotas de Agua y Alcantarillado del 2026 del Distrito, utilizando datos de consumo y facturación de los clientes, registros operativos y administrativos, planes de inversión de capital, políticas de reservas y principios de costo del servicio. Puede consultar una copia del estudio tarifario y los materiales relacionados con las reuniones públicas en el sitio web del Distrito: CastrovilleCSD.org. Si tiene alguna pregunta, puede comunicarse con el Distrito llamando al (831) 633-2560.

CASTROVILLE COMMUNITY SERVICES DISTRICT

NOTICE OF PUBLIC HEARING ON PROPOSED MOSS LANDING ZONE 3 SEWER RATES

Proposition 218 Notice

PUBLIC HEARING

Tuesday, December 15, 2026 at 4:30 PM
District Board Room • 11499 Geil Street • Castroville, CA 95012

Why You Are Receiving This Notice

The Castroville Community Services District (District) is proposing adjustments to the Moss Landing sewer rates. The proposed rates are based on the District's 2026 Water and Sewer Rate and Fee Study and are designed to recover the cost of providing sewer service to customers in Moss Landing Zone 3, fund ongoing operations and maintenance, support for necessary needed capital improvements and system resilience, maintain appropriate reserves, and equitably allocate costs among customers based on cost of service.

If adopted after the public hearing, the first proposed rates would take effect July 1, 2027, followed by scheduled adjustments on July 1, 2028, July 1, 2029, July 1, 2030, and July 1, 2031. The Board may adopt rates at or below the amounts shown in this notice, subject to Proposition 218 requirements.

Proposed Sewer Rates

ANNUAL FIXED CHARGE: An annual fixed charge is proposed for all customers based on the relative cost to provide service to each compared to a regular residential customer (EDU). To develop fixed charges all costs are applied equally to each customer EDU because an EDU reflects the standard unit of service. The proposed rate structure is the same as the one currently paid by Zone 3 Sewer customers.

The current and proposed rates are shown in Table 1 below.

ANNUAL Fixed Rate – Per EDU

		8%	8%	8%	8%	8%
Billing Unit	Current	Jul. 1, 2027	Jul. 1, 2028	Jul. 1, 2029	Jul. 1, 2030	Jul. 1, 2031
EDU	\$265.56	\$286.80	\$309.75	\$334.53	\$361.29	\$390.19

How Your Sewer Bill Is Calculated

A customer's sewer bill consists of the applicable annual fixed charge billed based on the number of assigned EDUs, charged on the property tax roll.

Public Hearing and Written Protests

The Board of Directors will hold a public hearing on the proposed sewer rates on **December 15, 2026 at 4:30 PM in the District Board Room, 11499 Geil Street, Castroville, CA 95012**. At the hearing, the Board will receive public comment and consider all timely written protests. Oral comments are welcome but do not count as formal Proposition 218 protests unless accompanied by a valid written protest.

To be counted, a written protest should:

- Clearly state that you protest or oppose the proposed sewer rates;
- Identify the affected property by service address, assessor's parcel number (APN), or customer account number;
- Include the printed name and signature of the property owner or customer of record submitting the protest; and
- Be received by the District before the close of the public hearing on December 15, 2026.

MAIL WRITTEN PROTESTS TO
Castroville Community Services District
P.O. Box 1065
Castroville, CA 95012

Written protests may be submitted at any time before the close of the public hearing. Mailed protests must be received by the District before the close of the hearing; a postmark alone does not establish timely receipt. Written protests may also be delivered to the **District office at 11499 Geil Street, Castroville, CA 95012**, or submitted at the public hearing before it closes.

Only one written protest per affected parcel will be counted in determining whether a majority protest exists. If valid written protests are submitted for a majority of the affected parcels, the District may not impose the proposed rate increases. Pursuant to Government Code Section 53759, a judicial action to challenge any new, increased, or extended fee or charge must be brought within 120 days of the final approval of the fee or charge.

Additional Information

The proposed rates were developed through the District's 2026 Water and Sewer Rate and Fee Study using customer usage and billing data, operating and management records, capital plans, reserve policies, and cost-of-service principles. A copy of the rate study and related public meeting materials is available on the District's website at CastrovilleCSD.org. Questions may be directed to the District at (831) 633-2560.

AVISO DE AUDIENCIA PÚBLICA SOBRE LOS CAMBIOS PROPUESTOS A LAS TARIFAS DE ALCANTARILLADO PARA LA ZONA 3 DE MOSS LANDING

Aviso sobre la Proposición 218

AVISO DE AUDIENCIA PÚBLICA

martes, 15 de Diciembre, 2026 a las 4:30 PM

District Board Room • 11499 Geil Street • Castroville, CA 95012

Motivo de Esta Notificación:

El Distrito de Servicios Comunitarios de Castroville (el Distrito) propone ajustes a las tarifas de alcantarillado de Moss Landing. Las tarifas propuestas se basan en el Estudio de Tarifas y Cuotas de Agua y Alcantarillado del 2026 del Distrito y están diseñadas para recuperar el costo de prestar el servicio de alcantarillado a los clientes de la Zona 3 de Moss Landing, financiar las operaciones y el mantenimiento continuos, respaldar las mejoras de capital y la resiliencia del sistema que sean necesarias, mantener reservas adecuadas y distribuir los costos de manera equitativa entre los clientes en función del costo del servicio.

Si se aprueban tras la audiencia pública, las primeras tarifas propuestas entrarían en vigor el 1 de Julio de 2027, seguidas de ajustes programados para el 1 de Julio de 2028, 2029, 2030, y 2031. La Junta Directiva puede adoptar tarifas iguales o inferiores a los montos indicados en esta notificación, sujeto a los requisitos de la Proposición 218.

Tarifas Propuestas de Alcantarillado

CARGO FIJO ANUAL: Se propone un cargo fijo anual para todos los clientes, basado en el costo relativo de prestar el servicio a cada uno en comparación con un cliente residencial estándar (EDU en inglés). Para determinar los cargos fijos, todos los costos se aplican por igual a cada EDU del cliente, ya que la EDU representa la unidad estándar de servicio. La estructura tarifaria propuesta es la misma que pagan actualmente los clientes del servicio de alcantarillado de la Zona 3.

Las tarifas actuales y propuestas se presentan en la Tabla 1 a continuación:

Tarifa fija ANUAL – Por EDU

		8%	8%	8%	8%	8%
Unidad de Facturación	Actual	Jul. 1, 2027	Jul. 1, 2028	Jul. 1, 2029	Jul. 1, 2030	Jul. 1, 2031
EDU	\$265.56	\$286.80	\$309.75	\$334.53	\$361.29	\$390.19

Cómo se Calcula su Factura de Alcantarillado

La factura de alcantarillado de un cliente consta del cargo fijo anual aplicable, facturado según el número de unidades EDU asignadas y cobrado a través del registro de impuestos sobre la propiedad.

Audiencia Pública y Objeciones Por Escrito

La Junta Directiva tendrá una audiencia pública sobre los cambios a las tarifas de alcantarillado el **15 de Diciembre del 2026 a las 4:30 p. m. en la Sala de Juntas del Distrito, ubicada en 11499 Geil Street, Castroville, CA 95012**. Durante la audiencia, la Junta recibirá comentarios del público y tomará en consideración todas las objeciones por escrito presentadas dentro del plazo establecido. Se aceptan comentarios verbales, pero estos no se contabilizan como objeciones formales bajo la Proposición 218 a menos que vayan acompañados de una objeción válida por escrito.

Para ser tomada en cuenta, una protesta por escrito debe de:

- Declarar claramente que protesta o se opone a las tarifas propuestas de alcantarillado;
- Identificar la propiedad afectada mediante la dirección del servicio, el número de parcela del tasador (APN) o el número de cuenta del cliente.;

- Incluir el nombre impreso y la firma del propietario de la propiedad o del cliente registrado que presenta la reclamación; y
- Debe de ser recibida por el Distrito *antes* del cierre de la audiencia pública el 15 de diciembre del 2026.

ENVÍE SUS PROTESTAS POR CORREO A:

RE: ACWA Voting Representative Designation for CCSD

RECOMMENDATION:

Board to designate a voting representative for electronic ballot on ACWA's proposed Amended and Restated Bylaws.

SUMMARY:

Association of California Water Agency (ACWA) staff have requested the District authorize a designated voting representative by October 30th for the December electronic ballot on proposed Amendments to ACWA's Bylaws. Please see the Authorized Voting Representative Form in Attachment A.

Attachment A

ACWA members will vote by electronic ballot on proposed Amended and Restated Bylaws.

Key Details:

- **Electronic Voting:** Voting will be conducted electronically by each member agency's designated voter.
- **Designated Voter:** Each agency must **designate one voting representative by October 30**. To designate your agency's voter, please submit this **Authorized Voting Representative Form** by the deadline.
Note: ACWA will also use the person designated below as the voting representative in next year's election for ACWA's Board Officers and region boards for the 2028-'29 term. You will have an opportunity to change the designation prior to the deadline for nominating candidates, if desired.
- **Default Voter:** If no representative is designated by the deadline, your agency's **General Manager** will be the authorized voter by default.
- **Ballot Distribution:** Authorized voters will receive an electronic ballot on November 9.

For more information about ACWA's elections, visit: www.acwa.com/elections.

The person designated below will cast our agency's vote for the proposed Amended and Restated Bylaws process in 2026 and the election of ACWA's President, Vice President and Region Board for the 2028-'29 term.

RE: Authorize the General Manager to Order a 2027 Ford F350 4x2 XLT Regular Cab

RECOMMENDATION;

Authorize the General Manager to order a 2027 Ford F350 4x2 XLT Regular Cab from Cypress Coast Ford, Seaside, in the amount of \$88,117.60.

SUMMARY:

Staff currently utilizes a tow behind trailer for loading materials for field work requiring backfill/paving. This trailer is over 15 years old and does not currently suit the needs of the field staff. Bids were solicited from several Ford Dealerships and the results are listed below highest to lowest:

Salinas Valley Ford	\$91,390.31
Towne Ford, Redwood City	\$88,629.81
Cypress Coast Ford, Seaside	\$88,117.60

This was originally approved at the September meeting but the incorrect Staff Report was inadvertently placed into the September Board packet. This was an oversight on the General Manager's part. The price difference from the previous staff report is due to safety add ons to the dump bed including, underbody toolbox, Whelen amber light, backup alarm, LED lights, center ditch gate, a spreader apron, class V receiver hitch, and trailer plug 7/4 OEM socket. All three bids were confirmed they included these additional safety options.

The approved FY 26/27 Budget includes \$120,000 for this purchase
